A movement is already afoot in Iowa to secure the passage of a civil rights bill, by the legislature, at its meeting in January.

Courier Journal: There are 17,000 dentists in the United States. If you hear howling now and then in the heart of the city you may know it isn't a wolf.

THE BARBER COUNTY INDEX.

Medicine Lodge, Kansas.
E. W. PAYNE, — PROPRIETOR.

A movement is already afoot in Iowa to secure the passage of a civil rights bill, by the legislature, at its meeting in January.

Courier Journal: There are 17,000 dentists in the United States. If you hear howling now and then in the heart of the city you may know it isn't a wolf.

Free Press: All but one of the missing St. Louis girls have got back home, fat and healthy and independent, and the mother will put in an appearance as soon as the walking gets better.

The cattle men of the Black Hills are preparing to make a statement to congress of the cattle interests of that region, with a view to influence the opening of the Sioux reservation.

Tell Walton, formerly of the Caldwell, Kas., Post, but now Surveyor General of the Cherokee Strip, came in Wednesday to attend the fat stock show.—**Live Stock Record.**

"Surveyor General" is good.

The Mormon tabernacle, a corresponding writes, is the most wonderful whispering gallery in the world. When everybody in it is quiet, the faintest whisper may be heard in the remotest part of the house. It will seat 20,000 persons.

Aitchison Champion: Maine's greatest greenbacker and congressman, Mr. Murch, has concluded to open a drinking saloon in Boston. If he carries his greenback principles into his business, he will fill his whisky bottles with water and label them whisky.

Kansas is this year the leading corn producing state in the Union. The corn crop this year will aggregate 200,000,000 bushels. Missouri shows up with ten million bushels less, while Illinois, one of the leading corn producing states, has only 170,000,000 bushels; Iowa only 165,000,000 bushels, and Indiana only 100,000,000 bushels.

The Aitchison, Topeka and Santa Fe railroad company has just paid to the widow and five children of John Hilton, who was killed in the attempted train robbery at Coolidge, on the 27th of September, the sum of \$2,500. Facile, the fireman who was seriously injured at the same time, has been paid by the company \$500.

Rumor says there will soon be two passenger trains on the Southern Kansas railway, and that the mail train will arrive here about noon and leave about 2 o'clock in the afternoon—we hope it may prove true. The travel on the road is rapidly increasing. Another change we would like to see is increase of speed of five miles an hour to correspond with the time east from Kansas City.—**Harper Times.**

The old farmer who "don't believe in savings banks and hides his greenbacks in the parlor stove during the summer for his wife to burn up when cold weather comes on, has turned up again. His name, this time is Jacob Seib; he lives in Erie, Pa., and it was \$10,000 that went up in the blaze. To say the climax, it was a fire which the unhappy wife built in preparation for their golden wedding celebration which destroyed the savings of a life time.

K. C. Times: Certain papers are making merry because "a woman has challenged Bob Ingersoll to a discussion, and Bob has crawled off." It depends largely on the nature of the discussion and the name of the lady. If it were Bob's wife, and if the discussion happened to be on the subject of the autumnal styles, Bob was justified in the premises. A very ordinary woman could give Cicero points in a discussion relating to the advantages of fall wear for ladies.

Southern eloquence is not on the wane for in a Kentucky court the following peroration was delivered in a criminal case:

"Gentlemen, you may hang the ocean on a grapevine to dry, lasso an avalanche, pin a napkin to the mouth of a volcano, skin the clouds from the sky with a teaspoon, past 'to let' on the moon and stars, but never for a moment delude yourselves with the idea that this charming girl is guilty of the charge preferred against her.

Several cases of contagious disease, known as swell-head, have developed among the cattle at the Chicago stock yards. The first scientific examination of this disease in this country, was made on the 7th inst., under the direction of the United States Treasury Cattle Commission. It was decided that the disease was the result of the lodgment of microscopic plants in the teeth. When the disease extends to the jaws it nearly always proves fatal. It can be communicated to man.

Jack Snider went below yesterday to receive a 1,000 head of cattle bought from Mr. Bugbee.

Messrs. Hyde & Connor have bought 300 head of three-year-old steers from D. T. Beals, which they will take to Butler county to feed.

Lem Musgrave has bought 150 Hereford and Shorthorn spring bulls. Some of these bulls go into the Hewins & Titus pasture. The remainder Mr. Musgrave will keep on his place north of South Haven. Lem is going into the stock breeding, and has taken a particular fancy to Herefords and Polled Angus.

Sam Hyde, of Leon, Butler county, and Mr. Follinwider, of the same county, bought of D. T. Beals yesterday 300 head of two and three year olds, which they had shipped up. The cattle were a smooth lot, and if no accidents happen Messrs. H. & F. will make some money out of their surplus corn through them.

Mr. Beals has another lot of feeders on the way, which will be here in a few days.—**Caldwell Journal.**
